

## Vasculitis IgG Antibodies Changes Tests Brought Inhouse

- Effective August 14, 2018
- Performed Monday – Friday, 7am to 11pm
- Methodology Change
- Reference Range Change
- New Test Orders

**GBMAB** – Glomerular Basement Membrane

**MPOAB** – Myeloperoxidase Ab

**PR3AB** – Serine Protease 3 Ab

**MPOPR3** – Myeloperoxidase & Serine Protease Ab. (Vasculitis Panel)

### CURRENT

Method	Multiplex Bead Assay
Reference Range	< 19 AU/mL = Negative 20 – 28 AU/mL = Equivocal > 25 AU/mL = Positive
Sample Type	Serum
Collection Tube Types	Plain Red ( <b>Red</b> )

### FUTURE

Method	Multiplex Flow Immuno-assay
Reference Range	< 1.0 AI = Negative ≥ 1.0 AI = Positive AI = Antibody Index
Sample Type	Serum
Collection Tube Types	Plain Red ( <b>Red</b> )
